LOAD CHART

Customization is available
 Products and specifications are
 subject to be changed without notice

Standard Feature

- AC drive system
- Emergency disconnect switch
- Rubber floor mat
- Grammer high elastic seat
- 2 Spools control valve
- Locked spring gas
- Front combined lamp
- 3 meters/118 inch 2-stage mast
- Adjustable steering column
- Rearview mirror
- Drive, lift, steering controlled
- Rear combined lamp
- Beeper
- Toolbox and file folder
- Hour meter, self-diagnose indicator

Optional Feature

- Front wheel & Rear wheel solid tire
- 3 or 4 spools control valve
- 4.3-6.0m/169-236inch 3-stage mast
- 2.5-4.5m/98.4-177inch 2-stage mast
- With attachment
- Other dimensions fork
- High capacity battery
- Higher or wider backrest

Jseries
 4.0/4.5/5.0T
 Electric Forklift

EP Electric forklift Truck-J series

The distinctive features of the new 4-5t/8800-11000lb J series electric four-wheel forklift as follows:

- Versatility of use due to compact design and minimal operating space requirements. Compact dimensions combined with superb maneuverability.
- High stability, both when stationary and cornering, due to long wheelbase, low centre of gravity and wide tyres.
- Economy of operation, resulting from minimized maintenance costs, e.g. fully enclosed 3 phase AC asynchronous motors with high degree of efficiency maintenance free life.

DANAHER MOTION made high-frequency controller incorporates a powerful microprocessor together with MOSFET power electronics.

New Multi-Display employed full dotted LCD is located on the steering column to improve visibility and manipulate-ability.

The adjustable steering Column ensure a comfortable working position.

Comfortable seat can be upgraded to a luxury semisuspension version.

SOFT LANDING LIFT CYLINDER

During lowering fork with no load, fork speed is reduced just before touching ground to avoid collision noise with ground. The operator and those working near the forklift will appreciate the reduced noise.

The J series four-wheel truck has three independent braking systems:

- Regenerative braking system
- Hydraulic wet disc brake system
- Toggle-type parking brake

AC Power System

Multiple benefits of the AC Power System include: fast response to operating commands, precise power control, compact components. Moreover, since the AC motor does not use contactors and brushes, these maintenance items will no longer be required. Operata will be able to feel the difference by the truck's New design and performance.
